

BÆM Meeting on Development Economics

6-7 May 2027

CALL FOR PAPERS

The BÆM Meeting on Development Economics invites submissions on all aspects of development economics, including agriculture, culture, conflict, education, environment, fertility, firms, gender, health, history, inequality, labour, macro-development, migration, political economy, poverty, religion, and trade.

Keynote speakers:

Diana van Patten (Yale School of Management)

Benjamin Marx (Boston University)

The workshop runs with no parallel sessions; 30-minute talks and a couple of sessions with lightning talks aimed at PhD students, early-career, and local researchers. Please indicate whether you wish to be considered for a full presentation, a lightning talk, or either.

We aim to attract a diverse set of presenters in terms of career stage, gender, and country of origin, and we particularly welcome submissions from researchers based in low- and middle-income countries.
